

COMPANY PROFILE

ABOUT US

Bulk Liquid Storage Providers In U.K.

Caldaire Terminal Ltd is a leading independent tank storage company based in the UK, strategically positioned at the heart of Europe's key trade and transport routes. We specialize in the secure, efficient, and flexible storage of bulk liquids, including petroleum products, chemicals, biofuels, and edible oils, delivering customized solutions to a wide range of industries.

Why Choose Our Company

Caldaire Terminal Ltd is your reliable partner for secure, flexible, and efficient tank storage solutions in the U.K. Strategically located and supported by a team of experts, we provide seamless logistics connections across Europe. Our modern infrastructure, dedication to safety, and focus on sustainability ensure we deliver the highest standards of service. With real-time inventory tracking, strict adherence to international regulations, and tailored customer support, we protect your products while helping your business run with confidence and efficiency.

Proven Experience

We understand the complexities of liquid storage and logistics across oil, gas, chemical, and renewable energy sectors.

Uncompromising Safety Standards

We operate with strict adherence to international safety, health, and environmental regulations.

ABOUT US

Our Mission

To deliver safe, efficient, and sustainable tank storage solutions that support our clients' growth, protect the environment, and contribute to a reliable global supply chain.

ABOUT US

Our Vision

To become Europe's most trusted and innovative independent tank storage partner — recognized for operational excellence, environmental responsibility, and a commitment to long-term client success.

OUR SERVICES

TANK STORAGE

Caldaire Terminal Ltd provides reliable and efficient bulk liquid tank storage solutions designed to meet the needs of diverse industries, including oil, gas, chemicals, and biofuels. Our state-of-the-art facility features temperature-controlled tanks, advanced monitoring technologies, and strict safety measures. Whether you require short-term or long-term storage, we guarantee the highest standards of product integrity and full traceability throughout every stage of the supply chain.

OUR SERVICES

TRANSSHIPMENT

We offer dependable transshipment services that enable the smooth transfer of your bulk liquids across multiple transport modes, including rail, road, barge, and sea. Strategically located in Rotterdam, our terminal provides optimal access for efficient import, export, and distribution throughout Europe and beyond. With swift turnaround times, flexible scheduling, and expert handling, Caldaire Terminal Ltd guarantees your cargo is delivered safely, punctually, and in pristine condition.

OUR SERVICES

PIPELINE TRANSPORTATION

At Caldaire Terminal Ltd, we offer secure and efficient pipeline transportation solutions designed to move petroleum products and other bulk liquids safely across various locations. Our state-of-the-art pipeline network is equipped with advanced monitoring systems to ensure product integrity, minimize transit time, and reduce environmental risks. Whether for large-scale industrial operations or specialized supply chains, our pipeline services guarantee reliable and delivery.

OUR SERVICES

TANK BUNKERING

Our tank bunkering services provide clients with flexible fuel storage and transfer solutions for marine vessels and offshore operations. With strategically located storage facilities and a highly skilled operations team, we ensure timely, safe, and cost-efficient bunkering services tailored to meet diverse client requirements. Contact us for all your tank bunkering solutions.

OUR SERVICES

TANK LEASING

Caldaire Terminal Ltd provides flexible tank leasing solutions designed to fit your unique storage and operational needs. Whether you require dedicated capacity for a single product or scalable options to accommodate growing volumes, we offer customizable lease terms, full access to our facilities, and round-the-clock inventory monitoring. All our leased tanks are maintained to the highest safety and environmental standards, ensuring complete peace of mind and full control over your liquid assets.

HSEQ

Health & Safety

We maintain strict compliance with international safety standards, fostering a safety-first culture through comprehensive training programs. Our advanced monitoring systems help prevent accidents and ensure a secure work environment for all employees.

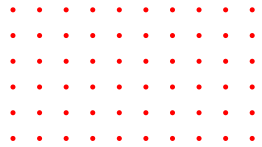

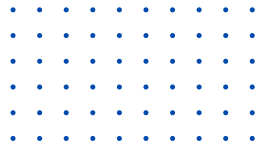

Environmental Responsibility

We are committed to sustainability through eco-friendly refining technologies, waste reduction, and water conservation initiatives. We ensure compliance with global environmental regulations to minimize emissions and protect natural resources.

Quality Assurance

We ensure high-performance petroleum products through rigorous quality control, ISO-certified processes, and continuous innovation in refining, storage, and distribution.

OUR TERMINALS

We offer terminal and serve as a central hub for liquid bulk storage in close proximity to key European trade and transport corridors. With advanced storage infrastructure, multimodal connectivity (rail, road, and sea), and strict compliance with international safety and environmental standards, we deliver tailored solutions to support both regional and international distribution.
